

# Champ's Business Benefits

**Champ's Champions members commit to raising £2,000 annually to support children and families.** This amount could fund talking therapy sessions for four patients or siblings, helping them cope with their emotions and anxieties.

"It's only in recent months we've started to see the effects Evie's journey has had on her mental health. Memories of her time in the intensive care unit were triggered by a smell she associated with her time there. **The support we receive from Candlelighters is amazing and we are so grateful.**"  
 - Katy, mum to Evie
